Important points

- For your safety, the HSBC India Debit Card sent to you is inactive, for use at merchant establishments or for online transactions (Please refer to the section 'Getting started with your HSBC India Debit Card' on page 6 for details on how to activate your card)
- A Personal Identification Number (PIN) will be issued to you separately, for using your HSBC India Debit Card at ATMs and POS terminals
- We will send this PIN to your registered mobile number by SMS within 3 working days after your debit card is issued subject to successful authentication. Refer 'PIN and Passwords' section below for details on the process to be followed. You can change this PIN to one of your preference, by using the PIN change facility at any HSBC ATM.

PINs and Passwords

- A. We will conform to internationally accepted standards for PIN generation, storage and terminal security relating to PINs and passwords. This will ensure confidentiality and security for your protection.
- B. We will send your Debit Card PIN by SMS to your mobile number registered on our records.

Please follow these steps.

Step 1: Once your Debit Card is issued and/or you request for an ATM PIN at PhoneBanking/Branch (for existing debit Cardholders), we will send you an SMS notification for your Debit Card ATM PIN on your registered mobile number as available in our records. You need to respond to this SMS by sending a password or authentication code from your same mobile number.

Step 2: The password is a combination of the first two letters of your first name on the card, date of birth as DDMM and the last 4 digits of your credit card number (no symbols or spaces). SMS this password to +919958418884.

Step 3: After we validate your password, we will send your Debit Card PIN by SMS. Please treat your PIN as confidential and memorize it. After you use this PIN, you can change it to one of your preference at any HSBC ATM. It is recommended that you delete the PIN SMS for security reasons.

If you are unable to validate your password/details through an SMS, or if the validation is not successful after two retry attempts, request you to contact HSBC PhoneBanking or visit your nearest HSBC India branch and request for a new PIN. We will follow this approach for PIN on new Debit Cards issued by us.

The above process will also apply for regeneration of PIN for existing debit cards. You can place the PIN regeneration request by calling HSBC PhoneBanking, at your nearest HSBC India branch or by logging on to the HSBC Personal Internet Banking service and sending a secure message. The PIN will be sent to your registered mobile number via SMS in one (1) day or will be delivered at your registered communication address with us within seven (7) days, as per your convenience, after the PIN regeneration request is successfully placed.

- You will be required to authenticate your purchases at merchant outlets in India using your 6-digit PIN at the Point of Sale (POS) terminal, to complete the payment. Please contact us in case you need a new PIN to be issued
- For all Debit Cards issued on or after 1 December 2013, customers who have opted for domestic usage will not be able to make any overseas transaction, ATM and Point of Sale (POS) including online transactions on international websites
