5. Average Quarterly Balance (AQB)

The minimum AQB required to be maintained for HSBC Savings Account is ₹150,000. The AQB is calculated by adding the end of day balances for each day in the quarter and dividing it by the number of days in that quarter.

6. Levy of charge for non-maintenance of Average Quarterly Balance (AQB)

Customers need to fulfil the HSBC Savings Account AQB, failing which a quarterly service charge of 1% (plus applicable taxes**) of the shortfall of the AQB will be levied for the quarters in which the eligibility criteria is not met. A notification will be sent to customers in the month immediately following the end of the quarter, in case the account has had a shortfall. In the event the AQB is restored to the required level in the following quarter, there will be no charge. If there remains a shortfall, the service charge will be levied on the lower of the shortfalls in the two relevant quarters.

For example, if there is a shortfall of ₹60,000 in AQB for the quarter April - June 2015, we will send a letter in July 2015 advising the shortfall amount. In the event that the AQB is built up to the qualifying level (₹1.5 lakh) in the quarter July - September 2015, there will be no Below Balance Fee (BBF). However, if the AQB is not built up to the qualifying levels and assuming the shortfall for the quarter July - September 2015 is ₹25,000, the service charge of 0.7% shall be applied to the lower of the shortfalls for the two quarters (i.e. the service charge will be ₹175, which is 0.7% of ₹25,000).
